

Project 2.2
Do It for the ‘Gram

[Yi Li]
[6/29/26]

The content in this project is for the Noz brand.

Select on-brand UGC

This resonates with the Nöz audience because the coloring of the post is very warm and bright, matching the photography style of Nöz. The tone of the content is carefree, everyone's smiling and looking at the camera with Nöz sunscreen on their nose.

Select a Type of Influencer

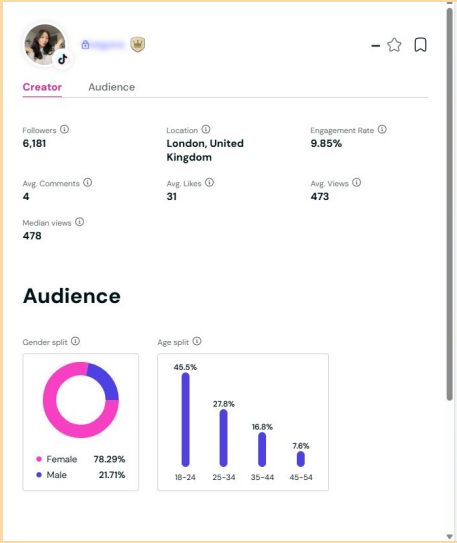

Type of influencer	Followers
Celebrity	2M+
Macro	500K–2M
Micro	<500K

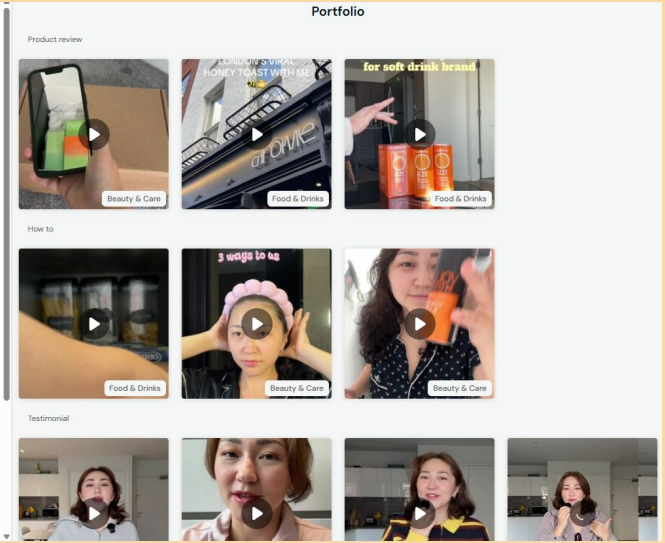

I would select micro influencers because micro influencers are more likely to accept low-budget or product-only partnerships. Also the audience for micro influencers are more niche compared to macro or celebrity influencers who have a very wide range of audiences.

NÖZ

Influencer 1

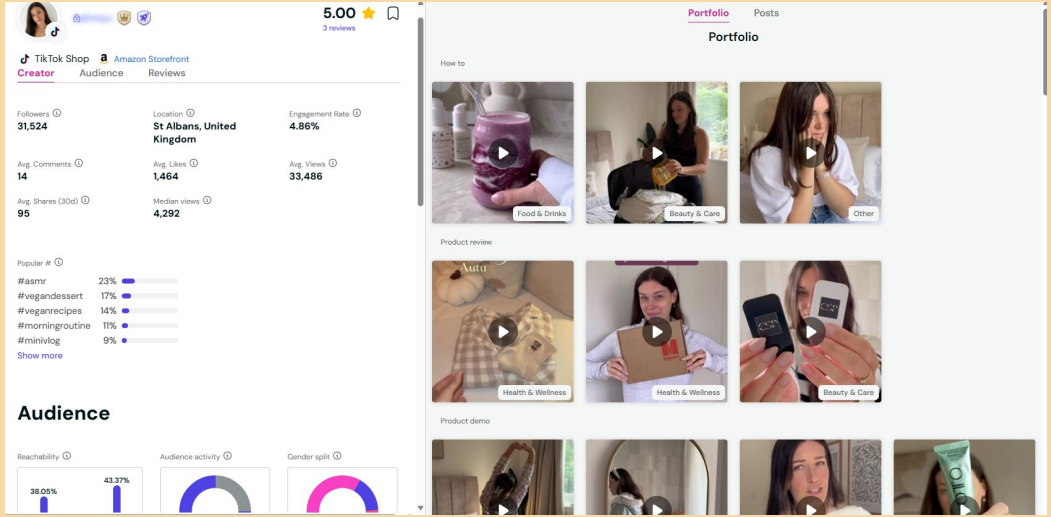

I chose this influencer because her audience is female dominated and young. She also has a very creative way of making content that makes it fun and unique. I think these traits are perfect for promoting Noz

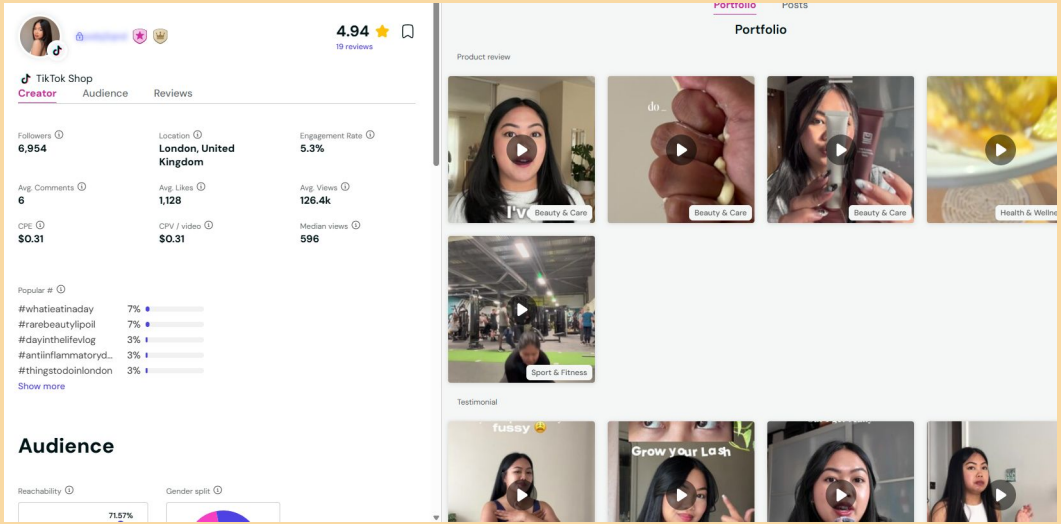

Influencer 2

I chose her because over 50% of her audiences are <50 years old and 83% female. Her audience also mostly resides in the UK.

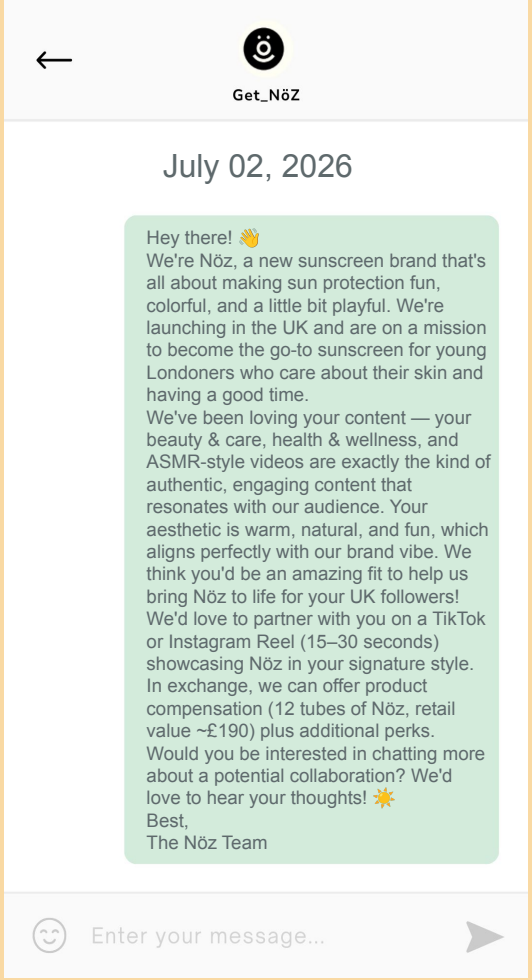

Influencer 3

I chose this influencer because she has done a lot of beauty & care videos already and she's seems to be a outdoor person too.

Crafting the Perfect Intro to an Influencer
