Brand Guidelines

Our Story

“Lead with your nose.”

As kids, our Ma would share this sage advice with us before every first day of school.

Honestly, to this day, we’re not suuuper sure what she meant. Were we supposed to be proud and keep our heads up? Sniff any potential new friends?

Either way, it got us thinking: The nose is a thing of beauty. An island at the center of our face, the capturer of our most evocative smellories (smell memories), a symbol of our intuition, and a key tool we use to make our way through the world.

It can also stick out from the rest of our bod, making it prone to increased sun exposure. Don’t we owe it some extra protection and a little bit of glam for sticking its neck out for us?

That’s why we created Nöz, a reef safe, vegan and cruelty-free SPF formula designed for your proudest feature. And just for a laugh, we made it available in every shade of neon under the sun. Let’s bring back lifeguard nose, yeah?

Be bold, be conscious, wear Nöz.

We love ya,
Bailey & Keegan

Brand Attributes

1 Optimistic

2 Nerdy

3 Adventurous

4 Fun

Our Logo

Our logo is bold and playful, just like us. It should be present in all branded materials, but it should never get crowded by other content. Leave plenty of room for it to breathe—at least one N-length in all directions!

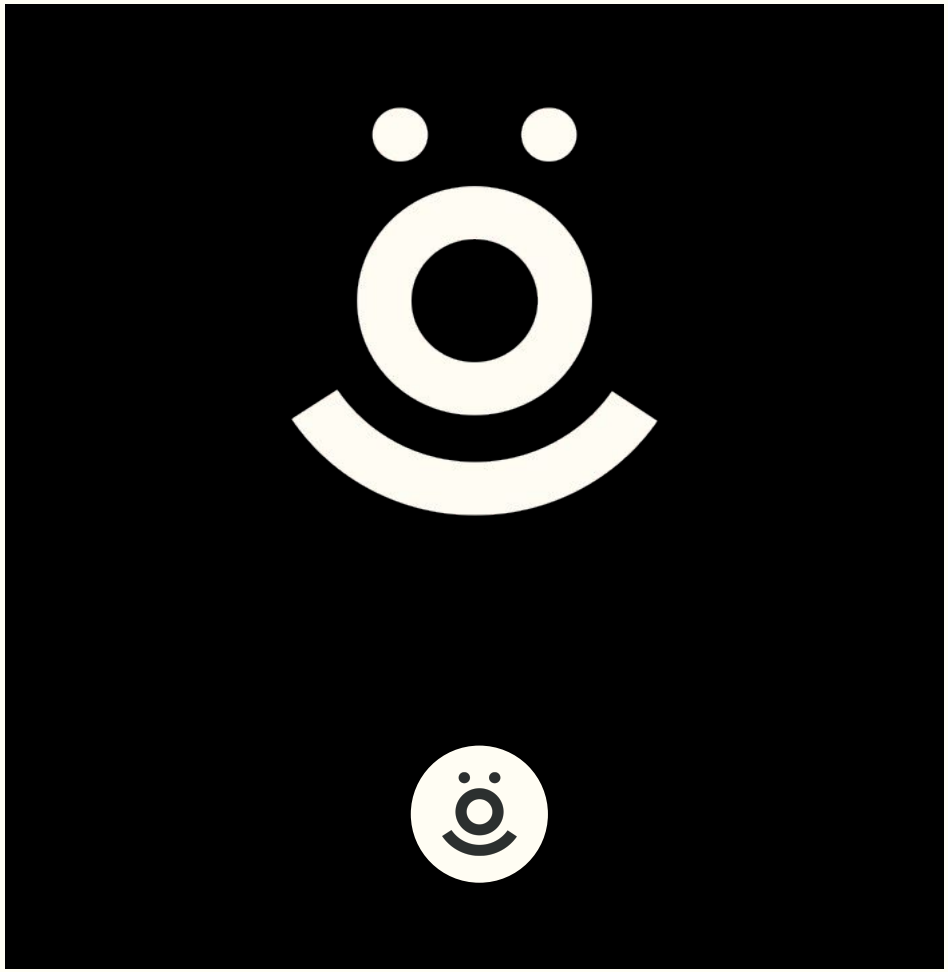

CLEAR SPACE

Our Symbol

The ö in our logo becomes a smiley figure with a big ol' nose that can be used to represent our brand in applications where the full logo may not be necessary—think social media avatars and stickers.

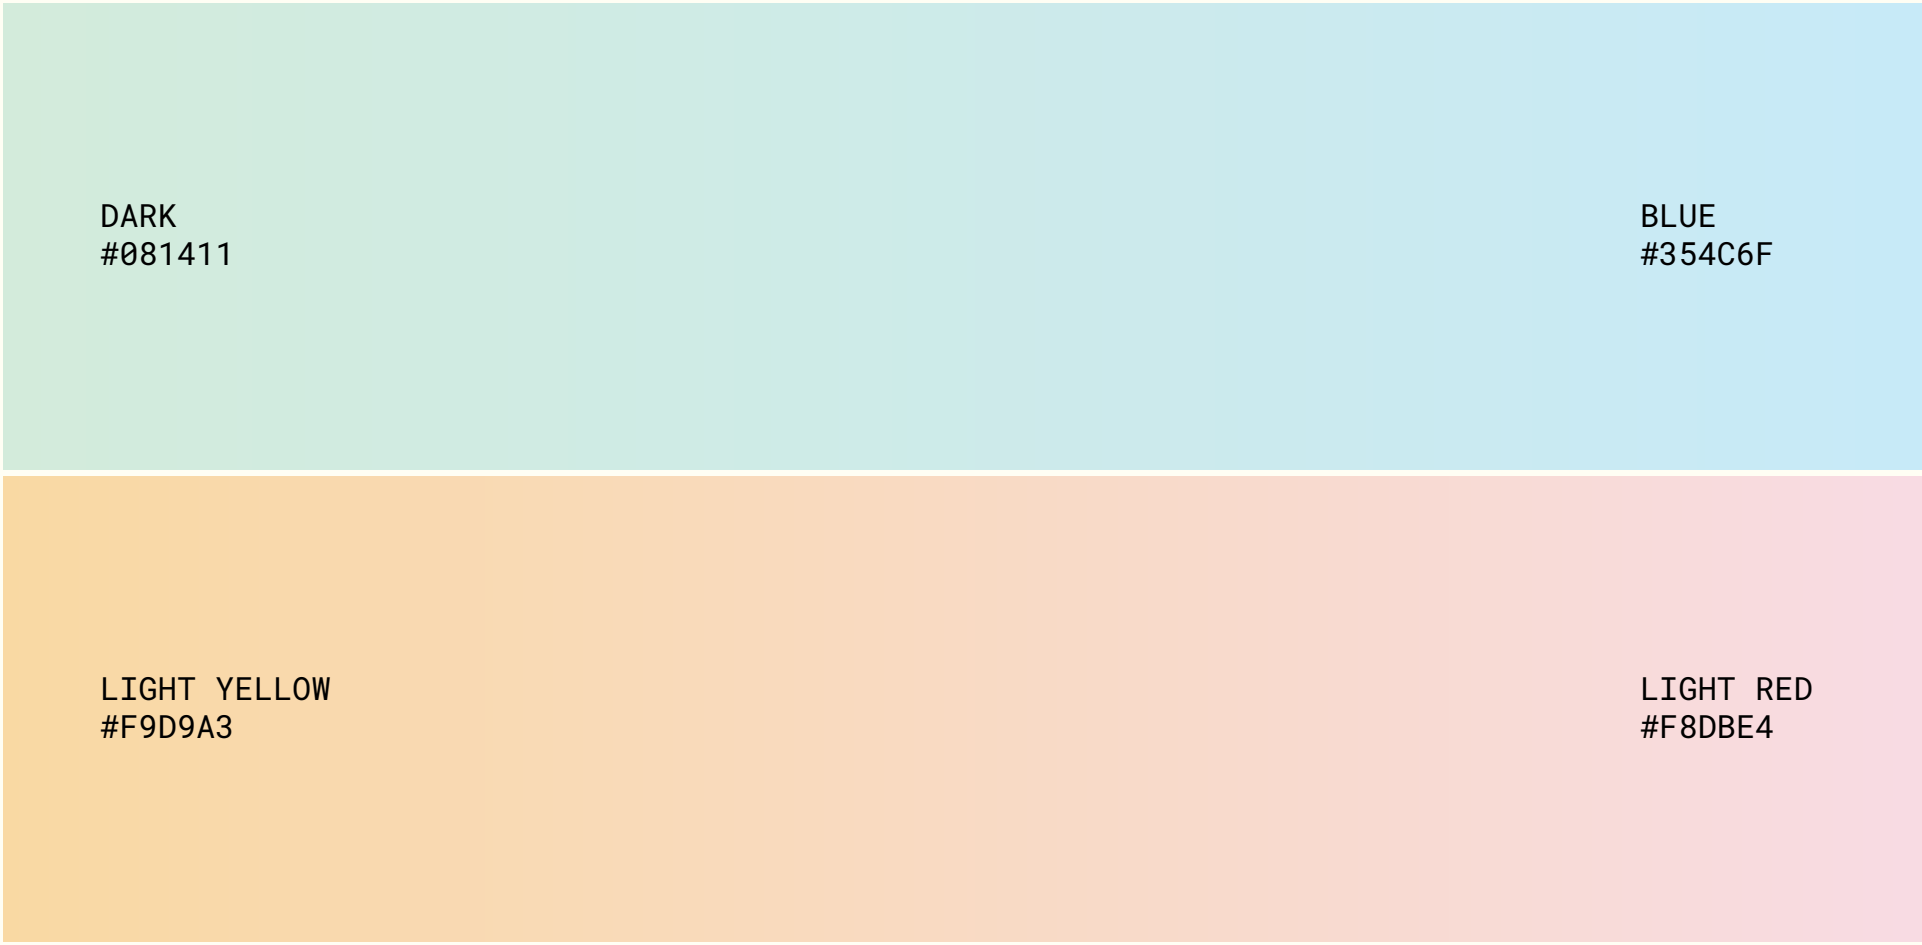

Primary Colors

Our brand is not dominated by one color; rather, it leverages this full palette of lights and darks wherever possible. When using colored backgrounds, take care that any accompanying text is legible.

DARK #081411	YELLOW #EEB33A	RED #D8453F	GREEN #335530	BLUE #354C6F
LIGHT #FFFEF4	LIGHT YELLOW #F9D9A3	LIGHT RED #F8DBE4	LIGHT GREEN #D3EBDB	LIGHT BLUE #C7EAF8

Gradients

Colors from the ‘light’ palette can be used to create gradients.
Gradients may be used sparingly as backgrounds or as unique design elements themselves.

Typography

Domine is our primary typeface and should be used for headlines and body copy. Roboto Mono is our secondary typeface and should be used for smaller chunks of text: navigation, callouts, tags, buttons, etc.

Photography Style

Our photography is meant to communicate and reflect our brand attributes: Optimistic, Nerdy, Adventurous and Fun.

WARM TONES

Use natural lightning, when possible. When using filters, pick ones with warm tones. Avoid photos with white, blue light or coloring.

CANDID FUN

Our product is super duper fun, and our photography reflects that. Show subjects smiling, dancing, jumping, hugging, singing. Just make sure that the photo is not ‘posed’.

SHOW THE NOSE LOVE:

We believe all noses are beautiful and try to show them in all colors, shapes and sizes. We believe a nose is a thing of beauty, something to be proud of. When photographing noses, models should lift their heads up to show pride and joy for this amazing feature.

SHOW PRODUCTS IN COLORFUL BACKGROUNDS:

When taking pictures of our products, show them on colorful backgrounds that contrast well with the packaging.

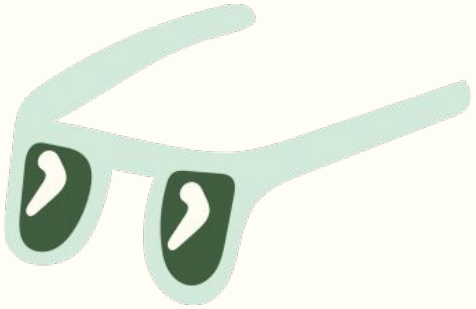

Illustration Style

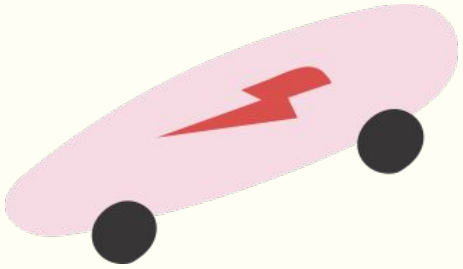

In lieu of photography, illustrations can inject playfulness into any design. Our illustration style is simple, colorful, and expressive—think Matisse, if he was wearing sunscreen on his nose.

Customer Personas: Cory the Camper

THE CONSCIOUS ADVENTURER

"Living in a city it's easy to forget where your food comes from, or even clean air and water. That's why I think it's pretty important to get out there and learn how to live in nature and protect it."

Age: 24
Job: Recent grad
Family: Single
Location: Madison, WI

Brand Preferences

LOVELOUD airbnb MiiR patagonia ROTHY'S

Goals

- Travel w/o negatively impacting the environment.
- Leave the planet better for future generations.
- Use social media to advocate for his causes

Frustrations

- Earth-friendly products are really expensive.
- Companies are not acting quickly enough to curb climate change.
- Companies use 'climate' as a marketing tactic, but don't really take it seriously.

MoMA

"Clothes are a form of artistic self-expression. I feel like my style is really unique and I love sharing it with the world."

Goals

- Source unique pieces that reflect her sense of style and her values.
- Use color to express her playful personality.
- Loves sharing her life on Instagram.

Frustrations

- Hard time compromising her love of shopping with environmental concerns.
- Often struggles to find unique products that express her style.

TOMS

THE HONEST CO.

KIRKLAND Signature

REI co-op

> “I love my kids, but children are so rough on the environment. I cry thinking of how many diapers I’ve put in our landfills.”

Goals

- Find products for her kids that save her time (her most precious commodity).
- Find products that are both safe for her children and good for the planet.

Frustrations

- Her kids sometimes don’t like the earth-friendly products she buys.
- Being an environmentally-friendly mom is so much work!
