Week 5: tiktok demos

Ruba Akbar, Yi Li, Soja Sunny

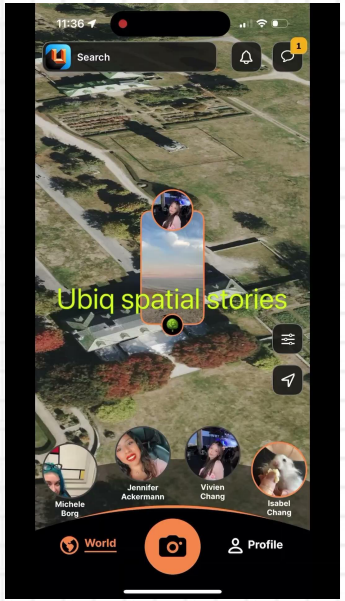

Ruba's TikTok Idea

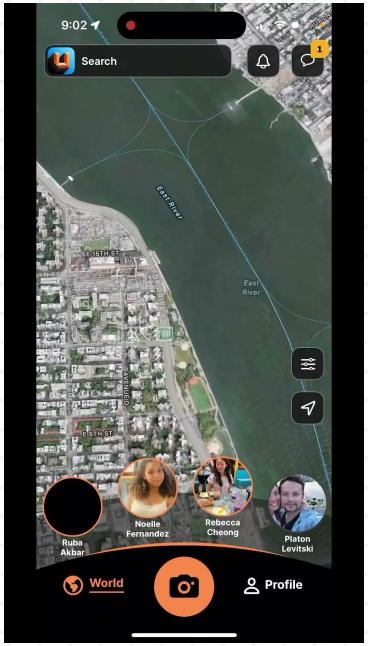

I used a meme template that says that ubiq is better than instagram

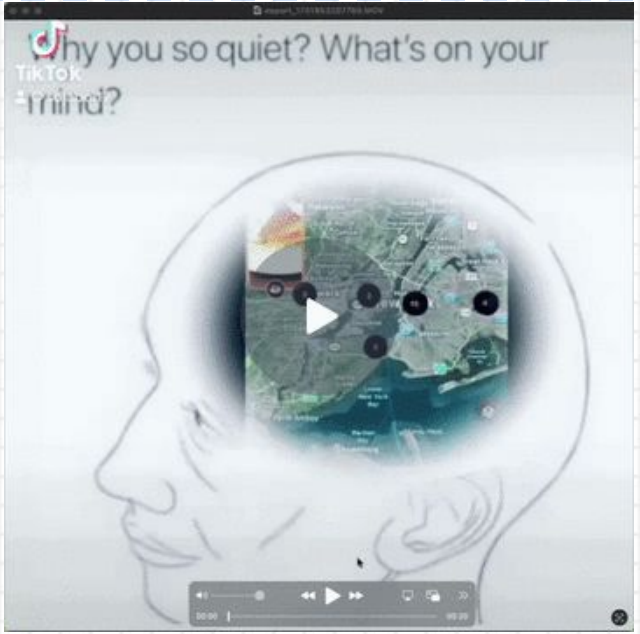

This one compares ubiq spacial stories vs instagram stories

Before going out, you check where other people have went to that maybe you haven't thought about before

Soja's TikTok idea

- Was a trending sound/template with audio of “sweet dreams” by Eurythmics
- Room for improvement:
  - Making the video full screen to see the images fully
- In the video, Im initially trying to show the other various videos/posts in the map and then ultimately showing a destination that i'm “currently thinking about”

video with audio HERE

Yi's TikTok Idea

Explanation:

- You're taking a look back at some things you've done during the week
- In the video, panning through the map trying to find places/activities I've done, recalling some memories.
